The PEERLESS Umbrella Company has been producing umbrellas of the highest quality for more than 100 years. The skills and craftsmanship which have been passed on through the generations mean that, today, the finished product is of the same standard as that produced by our predecessors in the last century.

The finest materials are sought from all over the world and fashioned in our own premises into the range of umbrellas portrayed in this website. Many of the handles shown are hand-bent and hand-finished by the finest umbrella handle makers.

Our range of umbrellas is complimented by a stylish collection of shooting sticks and a choice of walking sticks from a superb variety of woods.

The Hallmark of PEERLESS Umbrellas is the quality of our merchandise and the service offered to our clients.
